Des Huit Chapeau et Quarante Femmes**

August 2021

HOPE

National Chapeau Judy's theme is "HOPE for a Cure for our Special Children." Our Southern Division partners will help bring hope for a cure for respiratory diseases in children and will do it in a way we know well, with our Southern charm. We will find a way to meet with each other, help our special children and keep safe. We will volunteer, raise monies and donate items to help bring awareness to our cause. We will because we have HOPE.

Whether we meet in person or by some electronic means, we must keep the Eight and Forty relevant because as the old saying goes, out of sight, out of mind. It is so easy to find something else to do instead of meeting and/or working on our programs. When we are able to resume normality, when we do start meeting, we must make sure that we have not replaced our organization's activities with something new and then not have time for it anymore.

Sometimes against all odds and against all logic, we still hope and once you choose hope, anything is possible. We must not give up hope for curing respiratory diseases in our special children, they are too precious to us.

We will have a great year and the Southern Division partners are ready to turn on their charm to make it happen!
