

Children and Youth 2021-2022 Hope for a Cure for our Special Children

Hope for a Cure for our Special Children is National Chapeau's, Judy's theme and The American Lung Association is the All Partners project. The goal is to raise \$10,000.00. This project will focus on Educating Children on how to manage their Asthma, and will include purchasing the equipment needed to help with getting the proper medication into their system for better breathing. We will continue to support the National Jewish Health and "assist in the prevention of Tuberculosis, Cystic Fibrosis, Lung and Respiratory Diseases in Children".

Communicate with All Partners and keep them informed. Awards will be given. Continue your donations and fundraisers, together we can accomplish many things.
