

Hope for a Cure for our Special Children

Chapeau Judy Zimmerman

As we begin a new year, we “Hope for a Cure for our Special Children” is my theme. We will work together to make our year a good one.

The ALL Partner Project will be the American Lung Association. We will be helping our special children with breathing problems to have the equipment to help them learn to breathe better. This program will also help to train new helpers to be able to work with the children in school to better understand their health issues. Our goal of \$10,000 from all the partners needs to be reached early in the year as a check will be presented at the 2022 LeMarche.

Our great organization needs to grow in partnership as we continue to support the Nurses Scholarship program and the American Legion Child Welfare Foundation. Watch the cut off dates and get your donations in early for all our programs.

I would like to visit all the Departmentaux and I work on a first come, first serve basis so make your date with me as soon as you set your meeting dates. Just give me your salon and date and I will put it on my calendar and the details can come later. I look forward to meeting all the partners and get to know more new partners as we work for a better tomorrow for our special children.

Just remember I am a phone call or e-mail away to help you solve your issues on any of our program. Be kind to one another and smile to make others have a happy face for the day.

Yours in Service to our Special Children,

Judy Zimmerman, National Chapeau
